STUDIO 112 NEWSLETTER – APRIL 2016

## What is New @ Studio112

In the last few months a lot of exciting things happened at Studio112, here is a quick run-down...

### Studio112 got a little mascot...

As being a business woman is not challenging enough, Melanie decided to add “mommy” to the list of chores. Little Miliane said “Hello” to the world on 1 January 2016 .

### Expanded our offices with the option to rent...

As we have grown into the offices next door we now have a exciting opportunity to offer a 73m<sup>2</sup>, fully furnished environment to rent. If you are looking at office space for 5-7 employees in the heart of Hatfield please drop Melanie a email, melanie@studio112.co.za.

### We do app development...

The time has come for us to expand our playing field. We have teamed up with ‘Virtualscape’ some of the best developers and IT software solution experts in the country. Let us meet you with our team of experienced professionals to help develop the perfect solution for you on which app your company needs to leap onto everybody’s lips and phones.

### Software solutions...

Teaming up with Virtualscape broadens another horizon of custom software solutions. As an integrated IT technology and visual solutions company,

Virtualscape offers bespoke solutions to all clients, making measuring and improving business with real time management and measurement info, including visualization, available on a daily manageable basis.

Services and Products include:

- Business Technology Consulting
- Custom Process Development
- Effective Commercial and Operational Solutions
- Product Development
- Technology Services
- Incorporating Change Management & Training
- Communications Solutions

*(Keep an eye on your mailbox for more information)*

### High quality digital printing...

The digital world is taking over, and Studio112 is keeping up with the times by adding a Xerox Digital printing in-house service for our clients, better prices and quicker turnaround times.

### New website...

As you know your own needs always come last, but between servicing all our clients to the best of our ability and meeting deadlines every day, we have managed to refresh our own website, please go to have a look. [www.studio112.co.za](http://www.studio112.co.za)

## Welcome

This month we welcome Ilse to the team. WELCOME!

**Ilse Pretorius**  
Senior Graphic Designer

Ilse - I absolutely love good and clever design! I enjoy a good cup of coffee #Nespresso!

In my Spare time I enjoy running, and just recently completed my first Two Oceans Ultra Marathon. Maybe next year, Comrades!

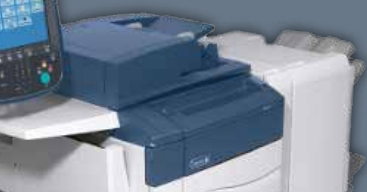

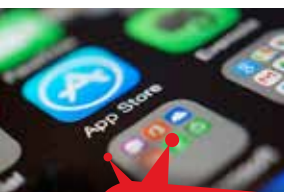

Motto: Life rewards action.

## Digital Printing

As you have seen we have added a Xerox C70 graphics printer to our itinerary, our hopes for this printer is to do small digital jobs in-house at a lower cost and faster turn around time to our clients. We aim to do specialised printing on the machine, we are playing with pre cut boxes that can be printed (for example golf ball box) and various types of pre-laminated and sticker paper which will be a great solution for events and those low quantity marketing items.

We can print up to A3+ on 300gms at a high graphic quality so perfect for those certificates, Christmas cards, document covers, folders and presentations.
